 - (f) Ten vehicles shall be the maximum on a trip except for a base camp. Larger numbers shall be split into several convoys with a maximum limit of ten vehicles per convoy each complete with its own Trip Leader and Tail End Charlie.
 - (g) Trip Leaders failing to comply with these requirements could leave the Club and themselves open to legal and insurance litigation. 13 CONVOY PROCEDURE

- 13.1 To maintain an orderly procedure of a group of vehicles on a trip the Club follows a Convoy Procedure found by experience to be the most practical.
- 13.2 Unless directed otherwise by the Trip Leader, all vehicles shall remain in starting order during the trip.
- 13.3 A Trip Leader may organise the order of vehicles in a convoy. He/she will also elect a 'Tail End Charlie' to take position at the rear of the convoy and this shall be the last vehicle in the convoy.
- 13.4 Unless the Trip Leader has specified otherwise at the beginning of the trip each participant will stop at any turn-off or intersection and will wait for the following vehicle before moving in the connect direction. Each vehicle in turn will wait at the intersection for the following vehicle before moving off. An indication is given to the vehicle in front when the driver of the next vehicle is aware of the intersection by operating the turning indicator lights, or confirmed by radio communications, thus enabling him/her to move off and help reduce delay. At all times in convoy each driver is responsible for the vehicle behind. If arriving at an intersection where there is no vehicle waiting and the driver is in doubt as to the correct direction, then that driver should not move off, but instead wait for the vehicles behind to catch up. The driver will then receive correct instructions as to which route to take.
- 13.5 When a vehicle arrives at a difficult section of track or at an obstacle, that vehicle is to stop, wait for the vehicle behind, then negotiates the obstacle or difficult section, then wait on the other side until the vehicle behind is safely across then proceeds.
- 13.6 Fuel and provisions should be sought prior to the start of the trip.
- 13.7 If a vehicle intends to leave a trip or convoy at any stage, that driver must notify the Trip Leader of his/her intentions.
- 13.8 When travelling unassisted in convoy the distance between each vehicle shall not be less than six vehicles lengths or the minimum legal requirement, making sure also to leave enough space for overtaking on highways and country roads.
- 13.9 Eligibility of vehicles, drivers and passengers to participate in Club events shall be determined by the Trip Leader and the relevant Club Rules, Policies & Procedures.
- 13.10 Every driver shall drive very slowly within any camp area.
